Disclaimer

Saleslogix has thoroughly reviewed this manual. All statements, technical information, and recommendations in this manual and in any guides or related documents are believed reliable, but the accuracy and completeness thereof are not guaranteed or warranted, and they are not intended to be, nor should they be understood to be, representations or warranties concerning the products described. Saleslogix assumes no responsibility or liability for errors or inaccuracies with respect to this publication or usage of information. Further, Saleslogix reserves the right to make changes to the information described in this manual at any time without notice and without obligation to notify any person of such changes.

Technical Support

Technical Support is available to Saleslogix customers with support contracts directly from Sage Software or Swiftpage, and to Certified Business Partners. Calls are answered during business hours, Monday through Friday, excluding holidays. Current contact information is available on the web at: <http://www.saleslogix.com>

Partners with a valid technical support contract and a Web access code can request technical support electronically on the Partner Support Portal Web site: <http://www.slxinternal.sagesalesLogixcloud.com/partners>.

Customers with a valid technical support contract and a Web access code can request technical support electronically on the Customer Support Portal Web site: <http://www.slxinternal.sagesalesLogixcloud.com/customers>.

Revisions to this book are available through both Portal Web sites. Check regularly for current Saleslogix product documentation.

Applying Update 19 for Sage SalesLogix Version 7.5.4

This document describes Update 19 for Sage SalesLogix version 7.5.4.

Prerequisites

The following Sage SalesLogix software must be installed before installing this update:

- Sage SalesLogix version 7.5.4.

Do not install Update 19 for Sage SalesLogix 7.5.4 on any other Sage SalesLogix version.

Issues Fixed in This Update

Update 19 for Sage SalesLogix version 7.5.4 addresses the following issues:

Defect	Description
13091957	Force SlxLoggingTrigger.dll to allocate memory from the heap in a thread safe manner.
13091958	Force Delphi to allocate memory on the heap using the protection enforced when the IsMultiThread global variable is set to True.

File Information

File Name	File Contents	File Version
SLX_754_Update19.zip	SLX_754_Update19.exe	
SLX_754_Update19.exe	SlxLoggingTrigger.dll	7.5.4.7283
	SlxSearchTrigger.dll	7.5.4.7283

Applying the Update

Install this update to all computers where Sage SalesLogix is installed.

To begin the install

1. Close all Sage SalesLogix applications on the computer to which you are applying the update.
2. Extract the contents of the **SLX_754_Update19.zip** file to a temporary folder.
3. Navigate to the folder where you extracted the update files and double-click **SLX_754_Update19.exe**.

4. On the **see target** screen select one of the following:
 - **Install the SalesLogix Update** extracts the update files to a temporary folder and removes the files once the installation is complete.
 - **Extract and Install the SalesLogix Update** extracts the update files to a location you specify. The files are not removed once the installation is complete. If you choose this option, select a location where you want to store the update files.
5. Click **Next**.
6. On the **Welcome** screen, click **Install** to install the patch.
7. On the **Completed** screen, click **Finish**.
