Applying Update 06 for Sage SalesLogix Version 7.5.4

This document describes Update 06 for Sage SalesLogix version 7.5.4. This update requires version 7.5.4 with Update 02. Do not install this update on any other Sage SalesLogix version. To obtain the update, contact your support representative or go to <http://support.saleslogix.com> to obtain the update.

This update addresses the following issue:

Defect	Description
11083737	Error when opening remote office attachment from host "The Requested file 'xxxxx' was not found."

File Information

File Name	File Contents	File Version
SLX_v754_Update06.zip	SLX_v754_Update06.exe	
SLX_v754_Update06.exe	SLXLoggingServer.exe	7.5.4.7181

Applying the Update

Apply the update to all computers where the Sage SalesLogix Client, Administrator, Remote Office, and Remote Clients are installed.

To apply

1. Close all Sage SalesLogix applications on the computer to which you are applying the update.
2. Extract the contents of the **SLX_v754_Update06.zip** file to a temporary folder.
3. Navigate to the folder where you extracted the update files and double-click **SLX_v754_Update06.exe**.
4. On the **SalesLogix - v7.5.4 Update 06** screen, select your installation method:
 - **Install the SalesLogix Update** extracts the update files to a temporary folder and removes the files once the installation is complete.
 - **Extract and Install the SalesLogix Update** extracts the update files to a location you specify. The files are not removed once the installation is complete. If you choose this option, select a location where you want to store the update files.
5. Click **Next**.
6. On the **Welcome** screen, click **Install**, to install the patch.

Note The Update Network Images button is available on the Welcome screen. If you created automated installations of the Sage SalesLogix Client, you can

upgrade the installations to update 06 using this option. (You must browse to the .msi file and click **Update**. After the status bar indicates the install is finished, exit the install screen by clicking **Cancel**.)

Automated installations can be used to install the Sage SalesLogix Client for new users. When the automated installation is updated using this method, it contains the initial version of the Sage SalesLogix Client and all service packs and updates applied to your system.

7. After the installation is completed, click **Finish**.
